PROBLEM TO BE SOLVED: To copy and deliver contents while protecting a person having a right to the use of the contents in a license transfer system which transfers the right to the use of contents.

SOLUTION: Contents are enciphered with a key 1, and this key 1 and information on use right 41 are enciphered with a key 2 consisting of a medium ID which specifies a storage medium 10 where they are stored. At the time of transferring the right to the use of the contents, contents enciphered by the key 1 are transferred to a storage medium 30 of a transfer destination as they are, and the key 1 and use right information 41 are deciphered by the medium ID of the storage medium of the transfer source and are enciphered by the medium ID of the storage medium of the transfer destination and are stored in the storage medium 30 of the transfer destination.
